

MICROFIRST POWER PACKED APP

iSeries Compatible Interactive Slot Content

Are your valued slot Players frustrated when they have forgotten their Personal Identification Number and can't access their Promotional/Bonus offers? Are they leaving the Slot Machine to wait in line to reset their PIN at the Player's Club?

Our research has shown that over 200 transactions a day are occurring at the Player's Club in regards to PIN inquiries. MicroFirst's "PIN Eazy" eliminates all this frustration by enabling the player to "Change" or "Set" their PIN right at the slot machine.

PIN Eazy provides the Player with the ability to manage their PIN right at the Slot Machine. It frees up your Promotion's Booth line for your new customers and keeps your existing customers at the Slot Machine.

PIN Eazy

Before and After with PIN Eazy

Before

Bonus Available
Enter PIN#

Player is frustrated because they forgot their PIN#.

Player leaves slot machine and waits in Player's Club line to have their PIN reset.

Enter PIN:
XXXX

Player returns to slot machine with new PIN#.

After With PIN Eazy

Bonus Available
Enter PIN#

Player has forgotten their PIN# but with PIN Eazy they simply touch the Reset PIN button.

Interactive screens assist the player through the process of setting their PIN with PIN Eazy.

PIN Successfully Reset

Happy Player is now able to access their bonus rewards without having to leave their machine.

PIN Eazy

Intro Screen (sample)

PIN Eazy verifies that a Player's PIN is set and monitors, in real-time, if a Player has locked out their PIN. If so, an interactive menu is presented, guiding the Player through the process of setting their PIN. Once the Player touches the "Set PIN" button, where applicable the Player's identity is validated by a staff member, the Player will then be prompted with "Touch the Screen to Create PIN."

Enter PIN Screen (sample)

The Player will be asked to enter their NEW PIN and to confirm their NEW PIN number.

MicroFirst®
GAMING

PIN Successfully Created Screen (sample)

PIN Eazy will identify any invalid PIN entry attempts that are currently being monitored by the Player's Club, (i.e. PIN cannot be in sequential order, 2345, 4 of the same digit, etc.). If the Player does try a PIN that is invalid, an error message will be displayed and the Player must try another PIN selection.

PIN Eazy is personalized for your casino, with a consistent look and feel that matches your property's branding.

Please contact MicroFirst and we will arrange to get PIN Eazy up and running for your Players on your casino floor right away.
