Interactive Slot Content

Are your valued slot players confused when they have overlapping bonus offers available to them? Are they spending their time calling out to your staff or waiting in your Player's Club line to find out what's going on? Only to later find out that they didn't know about a Promotion/Bonus? This is frustrating not only for your valued Players but also your staff. MicroFirst Gaming's "Pick-A-Bonus" solves all this confusion by showing all available offers in one simple to understand and easy to navigate interactive menu on the slot system display, right at each Slot Machine. It also frees up your Promotion's Booth line for your new customers and keeps your existing customers at the Slot Machine.
