

MICROFIRST GAMING POWER PACKED APP

## iSERIES Compatible Interactive Slot Content

Do you have valued Slot Players that would prefer using their Comp Dollars at the Slot Machine as opposed to any of the Property Amenities? Do you carry a lot of liability on your Comp Dollar Books that you would like to reduce while giving your Slot Players more of what they want by converting to Free Slot Play?

Our research has shown that promotions of this type result in a high response rate from Slot Players while also generating additional trips to the property. MicroFirst Gaming's "**Bucket Manager**" allows the Slot Player to convert their Comp Dollars to Free Slot Play right at the slot machine at a conversion rate fully controlled by the Operator.

***Bucket Manager*** provides the property with a controllable Promotion to reduce the Comp Dollar liability currently on the books. Also, freeing up your Player's Club line for your new Slot Players and keeping your existing Slot Players at the Slot Machine.

# BUCKET MANAGER

## Before

*Player is frustrated because they don't have any more funds in their Free Slot Play account, but has an idea to find out about using their Comp Dollars at the slot machine*

*Slot Player leaves the slot machine and waits in the Player's Club line to inquire about using their Comp Dollars*

*Slot Player is disappointed to learn they are not able to use the Comp Dollars at the Slot Machine*

## After

*With Bucket Manager, the Slot Player simply touches a new button on the Dashboard Main Menu*

*Interactive screens assist the Slot Player through the process of converting their Comp Dollars to Free Slot Play with Bucket Manager*

*Happy Player is now able to access their Free Slot Play account and continue playing without having to leave their slot machine*

**Bucket Manager** verifies that a Player has enough money in their Comp Balance Account to have the feature available to them. If so, an interactive menu is presented, guiding the Player through the process of converting their selected amount of Comp Dollar to Free Slot Play. Once the Player touches the “**Bucket Manager**” button, the Player will then be prompted to enter their current PIN. The Player will be notified of the Conversion Rate set by the User/Operator. Then the Player will select the amount they wish to transfer. The Player will choose whether they wish to Confirm or Cancel the transfer after learning the Conversion Rate.

Enter Current PIN Screen (Sample)

Conversion Rate Screen (Sample)

The Player will choose Continue and press the Free Slot Play button on the Dashboard to download to the Slot Machine.

Enter Amount Screen (Sample)

Conversion Rate Confirmation Screen(Sample)

Thank You Screen (Sample)

***Bucket Manager is personalized for your casino, with a consistent look and feel that matches your property's branding.***

Please contact MicroFirst Gaming and we will arrange to get **Bucket Manager** up and running for your Players on your casino floor right away!
